

## GREEN PROFESSIONAL BUILDING SKILLS TRAINING

GPRO is a certificate program that teaches the people who build, renovate, and maintain buildings the tools to integrate high-performance construction and maintenance practices into their everyday work. Our holistic approach to sustainability training—combined with expert advice and the latest adult learning techniques—have made GPRO an education trailblazer for building trades and operators across the country.

Join over 14,600 certificate holders in more than 70 U.S. and Canadian cities—get ahead of the curve!

**"Everyone should take this course, even if it's not directly related to their job, because this information is important! It helps to be informed about the future of our planet."**

— *Fundamentals of Building Green Student, 2018*
